RANCH

WAIT!

**HEY PARENTS!! IF YOU AREN'T
READY TO HAVE THE TOUGH
CONVERSATIONS WITH YOUR KIDS
ABOUT WHERE THEIR FOOD
COMES FROM, STOP NOW! IF YOU
WANT A FUN WAY TO START THE
CONVERSATION, THIS IS A GREAT
BOOK FOR YOU!**

When God made Adam and Eve he
gave them the whole earth! He blessed
us with food that we grow.

Both in the ground and
on legs! He's blessed us
with so much, let's take a
look at how we use his
blessings.

Livestock-

Livestock is the word for
the animals we raise to use!

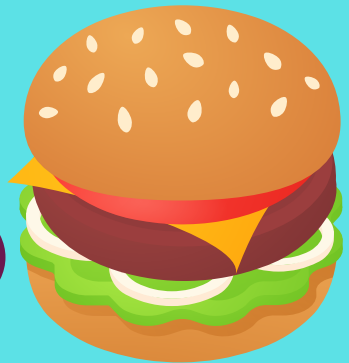

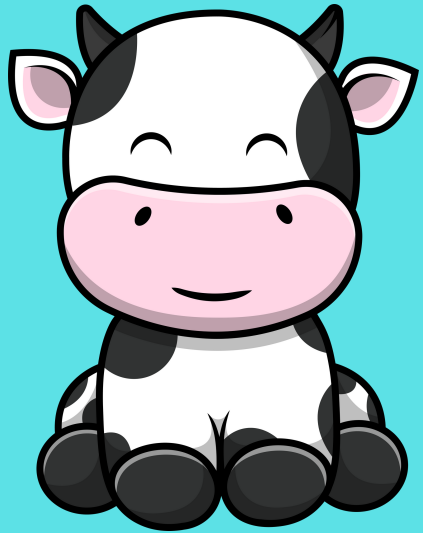

God made everything, and
we need to take care of our
livestock so we can eat and
be healthy and strong!

Cows

We raise cows to eat and milk! Cow meat is called beef, we use it to make hamburgers and meatballs!

Cow milk is the milk you buy
at the store. We can drink it,
or make cheese and ice cream
with it!

Chickens

We raise chickens to eat and for the
eggs they lay! Chickens that you eat
are in chicken nuggets!

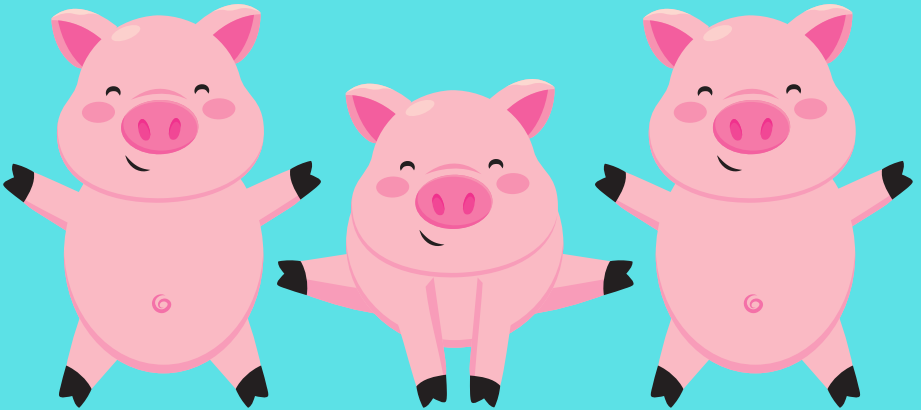

The eggs from the store come
from a chicken, and we need
eggs to bake things like cake!

Pigs

We raise pigs to eat! Pig
meat is called pork

We use it to make
bacon and sausage!

Crops-

Crops is the word for plants
that we grow to use!

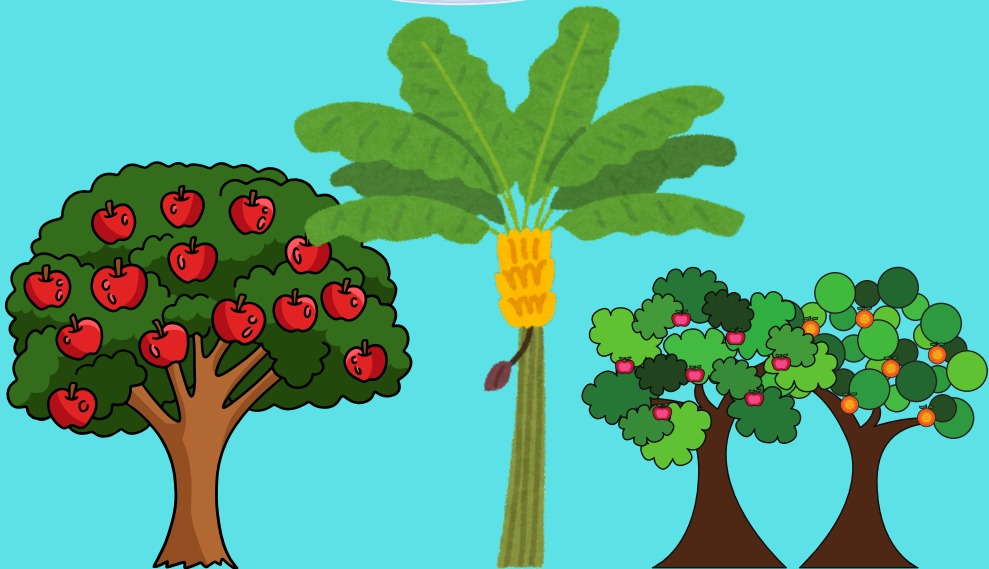

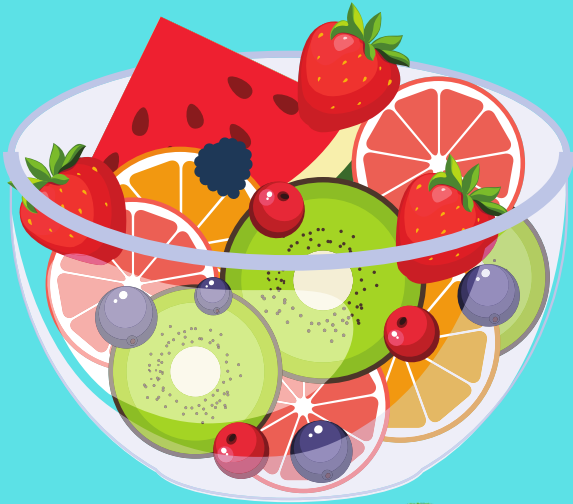

God is so smart and gave us
lots of different plants for all
kinds of different things!!

Fruit

A lot of the fruit you eat comes from trees! Apples, Bananas, plums, and cherrys are all grown in a tree!

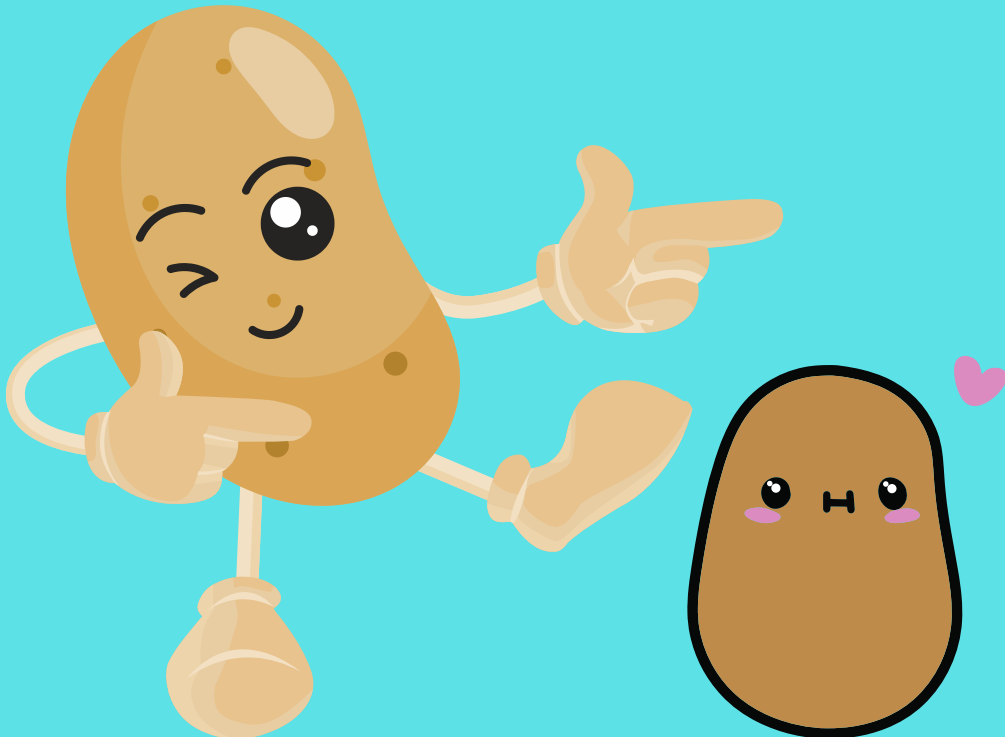

Some fruit comes from bushes
too! Like Blueberries and
Blackberries!

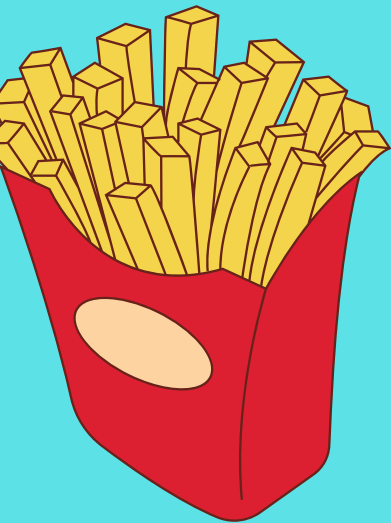

Potatoes

Potatoes are a vegetable that we grow! Unlike some vegetables, potatoes grow in the ground

We use them to make french fries
or mash them up for mashed
potatoes!

Wheat

Wheat is a grass that we grow!

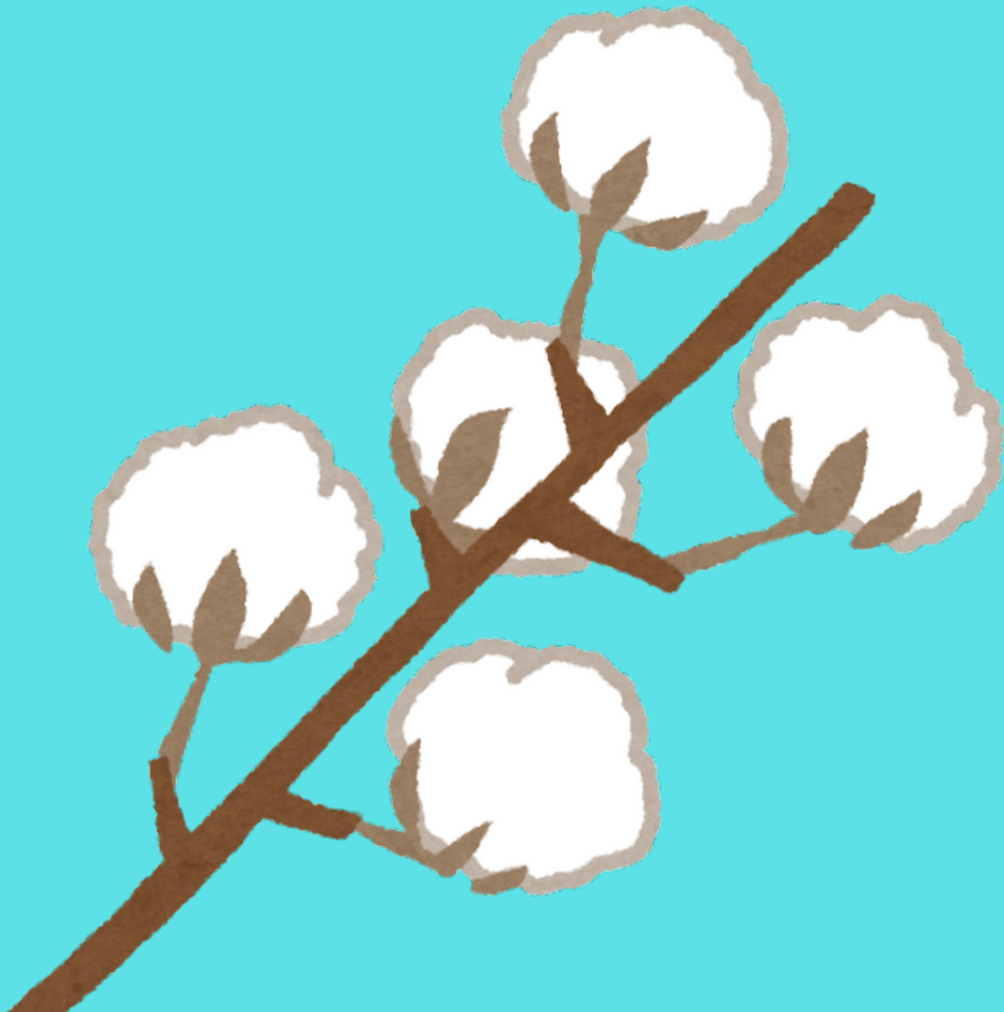

When it's time to harvest we cut
off the tops and use it to make
bread!

Cotton

Cotton is a plant! But the fruit it makes isn't something we eat.

Cotton is used to make things like T-shirt! You probably have cotton in the clothes you're wearing right now!

God gave us these animals and plants because he knows what we need! Buying from ranches and farms can help make sure the livestock are happy and well cared for, and the crops are grown the way he intended.

We are so lucky to have a God
that takes such good care of us,
and blessed to have land for
what he has given us!
